# Forecast thousands of wells, build type wells, and integrate with ARIES, ValNav, Mosaic, and PHDwin— in one fast platform.
From Data to Decisions

Perfect for A&D teams, mineral shops, PE firms, and BD groups, whitson^{lite} is a fast, affordable platform to store and auto-forecast thousands of wells, build type wells, and maintain a clean forecast database — while doing your economics in ARIES, ValNav, Mosaic, or PHDwin. Effortlessly automate production import/export from your favorite public monthly data sources.

Complimentary Perks for the whitson User Community

As an extension of our software subscription packages, all users get access to the **whitson user community** — a global group of reservoir and production engineers from 120+ companies. It's a space designed to help technical teams stay sharp, up to date, and connected with others solving today's most challenging subsurface problems.

Industry Knowledge Sharing Sessions

Exclusive access to quarterly knowledge-sharing sessions led by technical experts in the industry. Covering everything from RTA best practices to EOS model QA/QC.

Professional Development Course

Over 10 half-day courses per year, free for our users ($400–$1500/person for non-subscribers). Topics include nodal analysis, fluid modeling, simulation workflows, and more.

whitCon: Annual Technical Conference

Entry to whitCon, our annual user conference in Houston — with operator-led case studies, deep technical dives, and opportunities to connect and network.

Expert Support Every Step of the Way

Direct access to our technical team — for support, input on workflows, or collaborating on new feature ideas. We are famous for our teams' 2-minute response time!
